Gwalior, Madhya Pradesh, India | +91-9630486633 | rishabhkanha007@gmail.com | linkedin.com/in/Manchester811 | github.com/Manchester811

PROFESSIONAL SUMMARY

B.Tech Computer Science and Engineering (Data Science) student with hands-on experience building and deploying AI applications end-to-end — including a multimodal LLM-based evaluator and a Model Context Protocol (MCP) server for secure, AI-driven file automation. Strong in Java and DSA, with a growing focus on machine learning, applied AI, and developer tooling, and a track record of shipping projects from prompt/model design to public deployment.

EDUCATION

Vellore Institute of Technology

B.Tech in Computer Science and Engineering (Data Science); CGPA: 8.13/10

Class XII, CBSE Percentage: 74.4%

Class X, CBSE Percentage: 92.4%

Vellore, Tamil Nadu

Aug. 2023 – May 2027 (Expected)

TECHNICAL SKILLS

Programming & Databases: Python, SQL, R, Java, MySQL, PostgreSQL

Data Science & ML: Pandas, NumPy, Scikit-learn, TensorFlow, Keras, Data Visualization, Exploratory Data Analysis (EDA)

Generative AI & NLP: Generative AI, Large Language Models (LLMs), Google Gemini API, Prompt Engineering, Natural Language Processing (NLP), Model Context Protocol (MCP)

Tools & Deployment: Git, GitHub, Docker, Streamlit, Gradio, Hugging Face Spaces, Google Colab

PROJECTS

PCPilot – AI File-Management MCP Server | *Python, Model Context Protocol (MCP), pathlib* 2025

- Built a Windows filesystem server implementing the Model Context Protocol (MCP) in Python, exposing 10 tools (list, search, read, create, rename, move, delete files/folders, plus file-info and drive listing) that let AI assistants such as Claude securely automate local file operations.
- Engineered a defense-in-depth security model — directory allow-listing, path-traversal prevention via canonical-path re-validation, protected-file guards, and 5 MB read / file-type limits — and packaged it as a one-click-installable .mcpb desktop extension with structured logging.

EvalAI – AI-Powered Answer Sheet Evaluator | *Python, Google Gemini API, Streamlit, Pillow* 2025

- Built an AI web app using Gemini 2.0 Flash (multimodal) to evaluate typed and handwritten answer sheets via image upload across 8 subjects.
- Engineered a structured prompt pipeline enforcing strict JSON output (grade, accuracy, concept coverage, feedback), reducing manual grading effort and inconsistency; deployed securely on Hugging Face Spaces.

EXPERIENCE

IBM SkillsNetwork – Generative AI Program

Remote / India

Participant / Certified Learner

2025

- Studied foundations of Generative AI including large language models, prompt engineering, and AI application development through IBM's structured learning program.
- Completed hands-on labs using IBM Watson tools covering AI model deployment, data visualization, and machine learning workflows.

CERTIFICATIONS

- AWS Cloud Practitioner Essentials** – AWS Training & Certification (Aug 2026)
- AI Upskilling Certificate: Technical Foundation** – Qualcomm Academy (Aug 2026)
- TCS iON Career Edge – Young Professional** – Tata Consultancy Services (Aug 2026)
- Generative AI** – IBM SkillsNetwork / Adroit Pro Learn (2025) · Credential ID: 1568ecfcc98a4a2b98ea34c3642c1ad6

ADDITIONAL INFORMATION

Relevant Coursework: Foundations of Data Science, Data Structures & Algorithms, Database Management Systems, Machine Learning.
